

## Development of the Mobile Fishing Permit Byelaw Permit Conditions for Formal Consultation

Revocation and the re-making of the Mobile Fishing Permit Byelaw (and associated Permit Conditions) is a Key Task (KT103) in D&S IFCA's 2022-2023 Annual Plan. Drafting, in preparation for formal consultation on the Byelaw and Permit Conditions, is at a relatively advanced stage; however further decision making of the Byelaw and Permitting Sub-Committee (B&PSC) is required to complete the work. In the decisions making process the B&PSC should not only consider the duties under Marine and Coastal Access Act 2009 (MaCAA), but also the objectives set out within the [Fisheries Act 2020](#).

[A 5 Year Review Mobile Byelaw Report](#), dated 30<sup>th</sup> July 2019, was presented to the B&PSC on 19<sup>th</sup> August 2019, which detailed areas under discussion. This paper provides further information, which was requested and recorded in the [B&PSC minutes](#) of that meeting.

This paper introduces the Officers' papers, set out in the Agenda Items listed below, which focus on the following elements that are relevant for potential inclusion in Category One Permit Conditions, or both Category One and Category Two Mobile Fishing Permit Conditions.

- 7.1 Heritage Asset Sites
- 7.2 Coastal Mariculture Sites
