Exciting opportunity to manage inshore fisheries and conservation in the Devon and Severn District

The MMO is looking to recruit three members to the Devon and Severn Inshore Fisheries and Conservation Authority (IFCA)

Each IFCA needs members who will take a balanced approach to caring for our seas, assessing the priority and importance of all users and stakeholders. The Devon and Severn IFCA is seeking three proactive individuals with good communication skills and a demonstrable ability to disseminate IFCA regulations, policies and guidance through their network of contacts to serve as a member.

Andrew Wareing, Director of Business Development and Transformation for Marine Management Organisation, which is responsible for appointing local people with relevant expertise to the IFCA's, said:

"These are rare, exciting opportunities for people with experience and a passion for their inshore marine area to play a part in shaping how their local area is managed. If you want to make a positive difference and help balance economic, social and environmental needs, we would be pleased to hear from you".

From D&S IFCA's perspective, it would be desirable but not essential if the successful applicants have either a recreational fisheries background or a conservation background. This helps to maintain a balance of D&S IFCA members.
