D&S IFCA Annual Plan 2019 - 2020

Have a read of the D&S IFCA Annual Plan for 2019 – 2020

On 14th March 2019, members of the Authority were presented with a draft 2019 - 2020 Annual Plan. Members discussed the plan and suggested some minor amendments which have now been made. This is the eighth Annual Plan for the Devon and Severn Inshore Fisheries and Conservation Authority (D&S IFCA).

The Plan sets out what actions the D&S IFCA intends to take, during the financial year between 1st April 2019 and 31st March 2020. The Annual Plan sets out what the Authority will do in order to continue to deliver high standards in the development of fisheries and conservation management and identifies the range of activities it will undertake to fulfil its primary duties under Ss.153 and 154 Marine and Coastal Access Act 2009 (MaCAA).

The Annual Plan is a mixture of narrative and the use of tables. The use of tables within the Annual Plan is hopefully an easier way for readers to identify the different tasks that D&S IFCA will attempt to complete and indicates the dates for expected completion of the different workstreams. Later this year D&S IFCA will also publish an Annual Report about the work completed during 2018 – 2019. The Annual Report will be sent to DEFRA.
