Notices to Mariners

Fugro GB Marine Ltd set to undertake scheduled services on wave buoys within D&S IFCA's District.

Weather dependent, Fugro GB Marine Ltd will be undertaking scheduled services on behalf the National Network of Regional Coastal Monitoring Programmes from 15/03/2021 at the following sites within D&S IFCA's District.

- [Start Bay: 50° 17.5343' N, 03° 36.9889' W](#)
- [Torbay: 50° 26.0175' N, 03° 31.0827' W](#)
- [Dawlish: 50° 34.7978' N, 03° 25.0366' W](#)

Work begins from 15th March 2021 and involves a service of the Start Bay, Torbay and Dawlish Wave Buoys. A 200-metre clearance from all the buoys is requested. Please refrain from deploying any fishing gear in the vicinity of these buoys to reduce danger of entanglement and equipment loss. Please do not moor to any part of the deployed moorings or buoys. These Notices to Mariners can be read in full on our Notice to Mariners website page or by using the links above. Each notice provides a chart of the site and further details.

Work will also be undertaken in Cornwall (Looe Bay) at the following site:

[Looe Bay: 50° 34.7978' N, 03° 25.0366' W](#)

If you have any questions or comments you can contact Fugro's Coastal Oceanography department:

email: coastal.oceanography@fugro.com

Telephone: **02392 205510**

Although it does not represent the [core work of D&S IFCA](#), we have created a website page devoted to [Notices to Mariners](#) or similar information. The content presented on the page relates to information that is relevant to D&S IFCA's District and represents information that we are aware of. It is not a complete list of all Notices to Mariners that may apply, and you are advised to contact your local Harbour Authority for more detail on issues that may be relevant to your area.

Using our Website

The website is a good place to follow D&S IFCA's work. We have a range of display pages that can be viewed by using the main tabs or drop-down menus.

We also have a [Resource Library](#) that contains a huge collection of information divided into eight file pathways. The information is all free to view.

You can subscribe to our free e-newsletter "Inshore Insights" by [contacting us](#).
