Dear Sarah,

**Monitoring and Control Plan Hartland Point to Tintagel MCZ Iteration 1: October 2024**

Thank you for sending Monitoring and Control Plan for Hartland Point to Tintagel MCZ Iteration 1, received by email on 29<sup>th</sup> October 2024.

Natural England has considered the M&CP prepared by Devon & Severn IFCA. Please accept this letter as Natural England's formal advice on the M&CP and the conclusions it makes.

**We are content that D&S IFCA have the means to monitor fishing effort within the site, and that an appropriate trigger point for MCZ assessment review has been identified in this M&CP. We agree with the next steps, namely that D&S IFCA will contact NE to discuss further action if any mobile gear fishing activity is identified within the site in a monthly review or through IVMS alert notifications.**

Please do not hesitate to contact me if you have any questions or require further information.

Yours sincerely,
