IFCA Insights: December 2025 AIFCA Newsletter

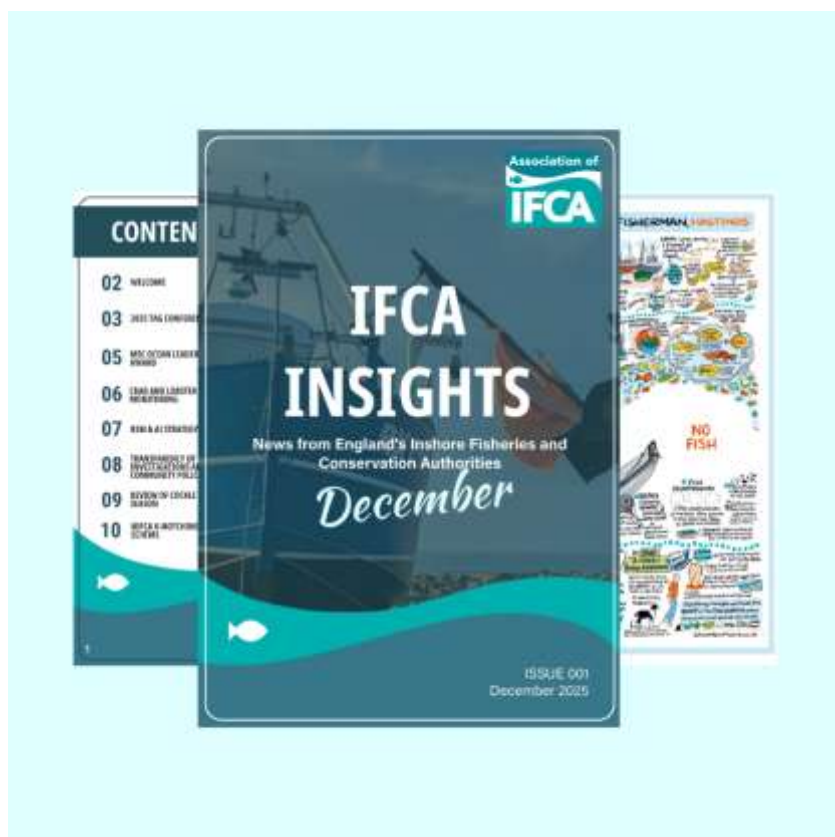

The Association of IFCAs is excited to release the beginning of a new series of newsletters: IFCA Insights.

The Association of IFCAs represents the ten IFCAs in England and the AIFCA aims to showcase the work undertaken by the IFCAs to manage inshore fisheries in England.

IFCA Insights is designed to better connect and communicate the work carried out across England's ten IFCAs. Through the newsletter the AIFCA aim to showcase and highlight the innovation, dedication and impact of IFCAs and share widely their important work.

In the December 2025 edition, you'll find:

- Highlights from the 2025 Technical Advisory Group Conference
- An overview of the newly adopted National Remote Electronic (REM) & Artificial Intelligence Strategy
- Regional updates on fisheries management
- Enforcement and partnership work
- An officer spotlight, showcasing the people who deliver this work every day
- And much more!

You can access the December edition [here](#).

These newsletters will be released Quarterly, with the next edition in March 2026.

You can sign up to receive future newsletters through the sign up form (please click [here](#)).

The AIFCA are always looking for new content, ideas and feedback.
