# Annex 1 – Salcombe Estuary

## Annex 1: Access Area – Fishing with a Dredge

### Legend

Access in accordance with paragraph 1.2 (b) of the Category Two Mobile Fishing Permit Conditions where a dredge is used for fishing within the area set out in Annex 1.

### Explanation of the Access Restriction

Annex 1 sets out the access area for fishing for scallop with a dredge by a vessel not exceeding 7 metres in overall length.

Fishing with a dredge for scallop can only take place on weekdays (excluding bank holidays) between 0900 hours (local time) and 1600 hours (local time) and during the period 15<sup>th</sup> December to 15<sup>th</sup> March inclusive.

A maximum of two dredges can be used at any one time, which must be hauled by hand.

Each dredge must be toothless and must not exceed 85cm in width.

Scallop removed from Salcombe Estuary must measure 100 millimetres or more in length (as measured across the broadest part of the flat shell).

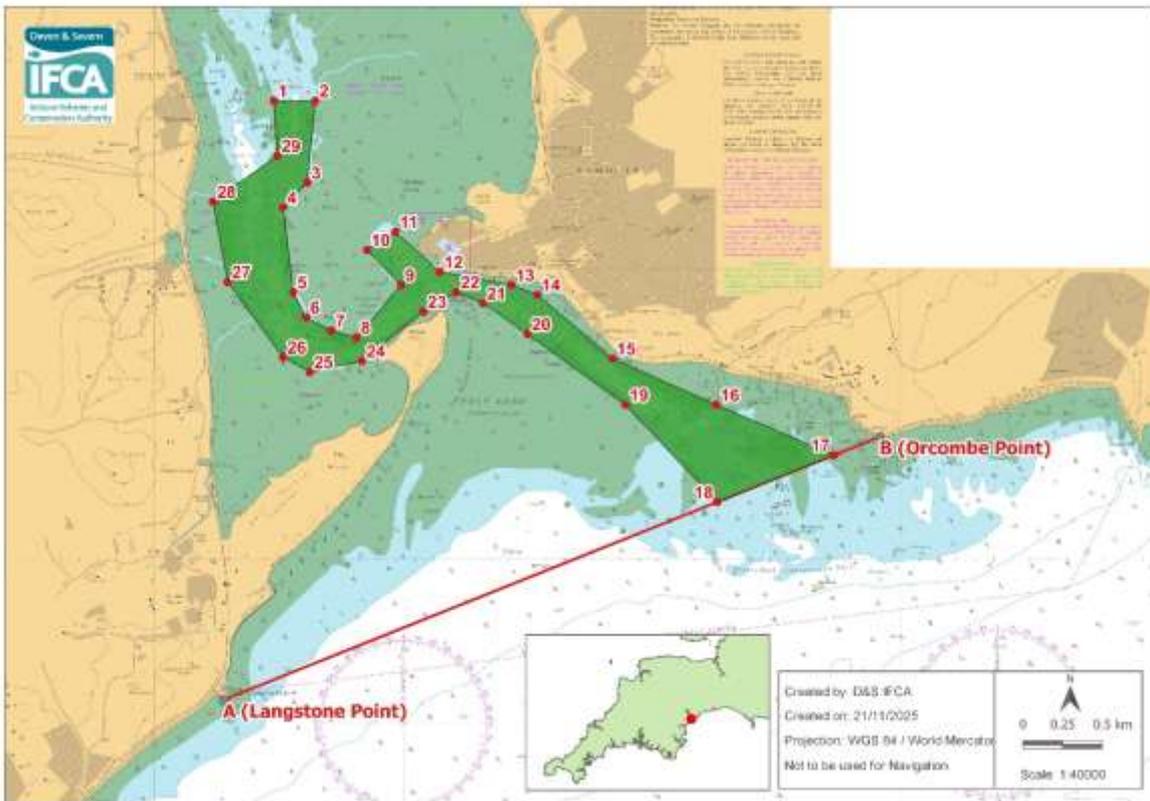

Except where national legislation applies, only scallop can be removed from Salcombe Estuary.

### Annex 2: Access Area – Fishing with an Elevator Harvester

#### Legend

Access in accordance with paragraph 1.2 (c) of the Category Two Mobile Fishing Permit Conditions where an elevator harvester is used for fishing within the area set out in Annex 2.

Exe Estuary Closing Line

#### Explanation of the Access Restriction

Annex 2 sets out the access area for fishing for mussel with an elevator harvester by a vessel not exceeding 14.99 metres in overall length.

The maximum width of the conveyor must not exceed a width of 1.4 metres.

Where a blade is attached to the front of the conveyor, it must not exceed 1 metre in width.

Except where national legislation applies, only mussel can be removed from the Exe Estuary.

## Annex 3: Measurement of the Size of a Marine Organism

### Explanation of the Restriction

Annex 3 shows how the measurement of the species listed in paragraph 2.1 (a) of the Category Two Permit Conditions will be determined in accordance with the sizes set out in paragraph 2.3 of the Category Two Permit Conditions.

### Scallop

1. A scallop is measured across the broadest part of the flat shell and must be 100mm or more.
