### IFCA Insights: March 2026 AIFCA Newsletter

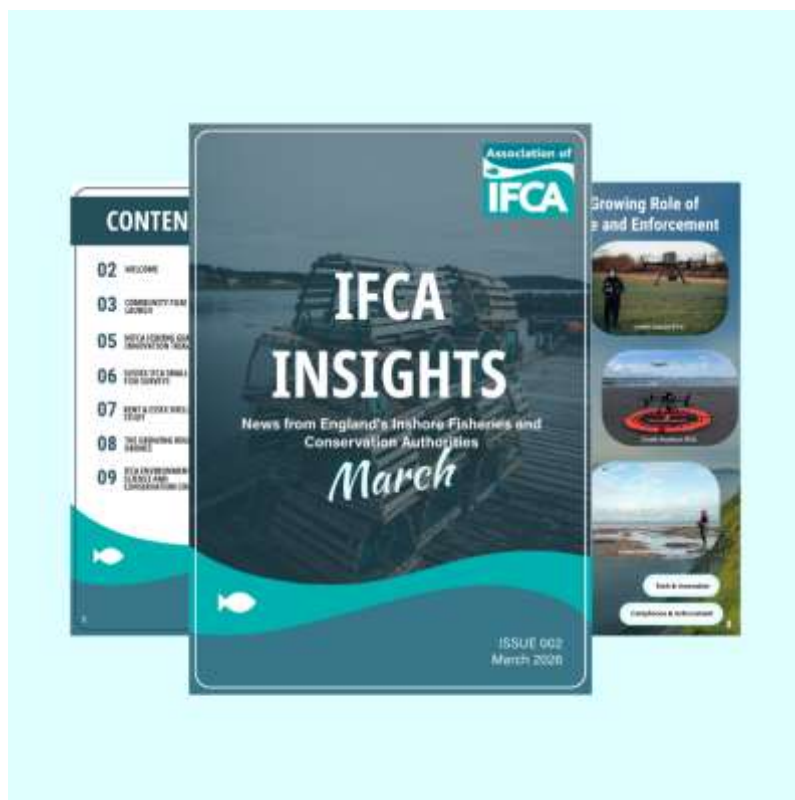

The Association of IFCAs has released their March edition of IFCA Insights.

The Association of IFCAs has released their March edition of IFCA Insights. IFCA Insights is designed to better connect and communicate the work carried out across England's ten IFCAs.

The Association of IFCAs represents the IFCAs at a national level and the newsletter aims to showcase and highlight the innovation, dedication and impact of IFCAs and share widely their important work to manage inshore fisheries in England.

In this edition, you'll be able to find out about AIFCA's ongoing collaboration with the Inshore and Small-Scale Fisheries (ISSF) Consortium, updates on IFCA training and professional development, the growing role of drones in IFCA science and enforcement and much more.

To read the latest edition please click [here](#).

These newsletters will be released Quarterly, with the next edition in June 2026.

The AIFCA are always looking for new content, ideas and feedback.
